EXPERIENCE

Peopletail | UX Designer

Toronto, Ontario | Nov 2020 - Present

- Designed a mobile review engine from low fidelity wireframes, into high fidelity mockups
- Bridged the gap between designers and developers, providing element and style guidelines for modern design
- Created brand guide to showcase elements and previous styles, ensuring consistency in further pushes of the site

Mastermind Toys | Sales Associate

Richmond Hill, Ontario | Nov 2018 - Mar 2021

- Maintained thorough knowledge of all products to ensure sales pitches for customers on demand
- Developed extensive interpersonal skills and communication skills to be able to sell products to as many customers as possible
- Built relationships with customers to be on a personal level and sell as much as possible while maintaining a strong rapport
- Sold products through phone calls during the COVID-19 quarantine

Interactive PDF | UX/UI Design Intern

Woodbridge, Ontario | June 2019 - Sep 2019

- Created a variety of website redesigns for interactivepdf.com as well as designing the corresponding responsive mobile versions
- Pushed out multiple redesigns for the Interactive PDF logo
- Designed multiple templates that businesses and clients could choose from to create their interactive PDFs
- Designed navigation and interface for the Getting It Done® Rotman School of Management course manual for the University of Toronto

Wordwrap Associates | UI Design Intern

Toronto, Ontario | May 2019 - Aug 2019

- Designed multiple interfaces for new possible website redesigns
- Worked on creating interfaces for the mobile version of the new website templates being presented

PROJECTS

Let's Eat | Mar 2021

- A food delivery application for mobile devices
- Allows user to browse from a large selection of options and continue to a checkout screen
- Clean minimal design with high constrasting and bright colours to convey an exciting environment

Corpus | Dec 2020 - Feb 2021

- Prescription medication information app
- Shows the user information about the medication they are taking, as well as natural solutions
- Allows user to scan prescription using text recognition to assist with accesibility on the app

Teach Me | Apr 2021

- A tutoring application for mobile and web devices
- Gives the user freedom to browse from a variety of different tutors with different backgrounds
- Allows the user to take notes within the application during sessions with their tutor

Bliss | Feb 2020 - May 2020

- Prototype of a mobile journaling application
- Showcases the user design process and all the necessary steps in designing a mobile application
- Walked through the process from the intial design planning to high fidelity mockups
